-  Recognize the profile of a trafficker
-  How to recognize human trafficking in different settings
-  Understanding recruitment techniques and methods of control used by traffickers
- 

# Outline SAFE iACT Module 9

- Introduction
- Learning Objectives
- 9.1 Protection and assistance needed by victims
- 9.2 Victim Assistance
  - 9.2.1 Defining Victim Assistance
  - 9.2.2 Addressing the Trauma Bond
- 9.3 Stages of the Healing Process
- 9.4 Legal Needs
- 9.5 Victim Rights
- 9.6 Stages of integrating Survivors into the  
Mainstream
- 9.7 Role Playing

# Introduction

- This module explores the prominent challenges victims and survivors experience as they move towards becoming integrated into a mainstream lifestyle. It identifies the rights of victims, how we partner with service providers to provide assistance to victims throughout the first point of contact.
- This component of the course provides information about specific resources that are available to trafficking victims in the locale in which the course is being delivered. The training will also discuss additional difficulties that face trafficking victims who are non-nationals.

# Learning Objectives

Participants will learn how to:

- Develop local resources relevant to specific locations
- Pro-bono legal services
- Social services
- What type of protection and assistance may be needed when a victim is leaving a trafficking situation

# Next Level Trainings

- Business Community ...and more!
- Hotel Managers & Staff
- Law Enforcement
- Lawyers (in-person trainings only)
- Media and Press
- Medical Community (Doctors, Nurses, PAs)
- Sex Worker Community
- Social Workers/Clinicians/Therapists
